

# **LEVERAGE THE POWER OF DATA FOR FASTER DECISION MAKING**

**Transform your data with the Consegna Data Lake Accelerator powered by Stax, to deliver increased time to market, improved reporting, developer agility and enhanced ease of use.**

**CONSEGNA**  
**.CLOUD**

A CyberCX company

**Overcome the challenge of siloed data, locked in different systems, and the constraints of time, effort and cost with the Consegna Data Lake Accelerator, powered by Stax.**

**Our team will transform your approach to consolidating, governing and using data - providing unlimited capacity, agility (ability to quickly drive insights across structured and unstructured data residing in different systems), and lower TCO.**

The Consegna DataLake Accelerator creates a platform which ensures enterprise grade security controls to establish governance on how data is accessed and used - even down to the granular row level.. Powered by Stax, we establish a best practice cloud foundation, taking care of all critical components and fundamentals to help unlock the opportunities of AWS faster.

Contact us now for a complementary Discovery Assessment with the Consegna DataLake Accelerator team.
